1. Tamil Nadu Engineering Admission (TNEA) Overview:

Tamil Nadu has more than 420 engineering colleges in Tamil Nadu. After 2007, the admissions for Engineering admissions (TNEA) are filled by single window system conducted through Anna University. For 2016 Tamil Nadu Engineering Admission (TNEA) is decided based on +2 (HSC) marks. Students apply for TNEA admission by collecting forms from Anna University www.annauniv.edu to get into the process. Tamil Nadu Engineering Admission (TNEA) is the process through which more than 1.5 lakh engineering aspirants get themselves enrolled into engineering colleges of Tamil Nadu through single window counselling. This guide will explain the end to end process of Tamil Nadu Engineering admission.

2. Tamil Nadu Quota System & Available Engineering Seats:

Tamil Nadu Engineering colleges are categorized into four types.

College Type	% of Govt. Quota
Govt. Engineering Colleges	100%
Self Finance or Private Engineering Colleges	65%
Govt. Aided Engineering Colleges	90%
Minority Colleges	50%

3. TNEA Merit list or Ranking

An overall State merit list will be prepared based on the cut-off marks from HSE subjects of Mathematics, Physics and Chemistry to 200. In cases where more than one candidate have got the same cut-off marks in the common merit list, then the inter-se merit among such candidates shall be determined in the order of priority as specified below

TNEA Ranking priorities

- Community wise Categorization
- Percentage of marks in Mathematics,
- Percentage of marks in Physics,
- Percentage of marks in the 4th optional subject,
- Date of Birth and
- Random number assigned (higher value will be given preference).

Therefore, in addition to the Maths, Physics, Chemistry, your fourth subject marks of Biology or Computer Sciences will be considered on bunching. In every 0.25 cut-off marks, there might be chances that so many students will get same cut-off marks. In that case, the inter-se merit among such candidates shall be determined in the order of priority.

Overall Ranking & Community Ranking

The students can have overall rank and community wise ranking too. The student can opt colleges based on your community rank too. There will be separate community ranking is available for BC, BCM, MBC, SC, SCA, ST community. The percentage of reservation various communities will be as per Govt. of Tamil Nadu reservation policies. The merit list will be prepared on overall ranking and community based ranking for all students applied for Tamil Nadu Engineering Admission.

4. Merit list of CBSE board for TN Engineering Admission

Cut-off marks for CBSE Board students:

For CBSE students, the marks obtained by the students in the relevant subjects in the qualifying examination conducted by various Boards or Authority shall be equated with the marks obtained by the students in the same subjects in the qualifying examination conducted by the State Board of Tamil Nadu by adopting the method of normalization.

Normalization Process:

If the highest mark secured by the student of State Board of Tamil Nadu in Physics is 100 and the highest marks secured by a student of any other Board in the same subject are 95 both the highest marks will be considered to be equal to 100. If a student of the other Board secures 70 marks in Physics when the first mark in Physics in the same Board is 95, 70 marks will be considered to be equal to 73.68

$$100 \times 70 / 95 = 73.68\%$$

After normalization of marks in the relevant subjects in the qualifying examination conducted by different Boards, the qualified students shall be merged into a common merit list.

5. Application Process

Cut-Off Marks Calculation:

Many of you will be interested to know how the cut-off marks calculated. This is a ranking based on Marks obtained in +2.

a) Total 100 Marks out of 200

M = Mathematics Mark / 2

B = Biology Mark / 2

b) Total 50 Marks out of 200

P = Physics Mark / 4

C = Chemistry Mark / 4

2 (Total 200 Marks out of 600)

Example:

Maths = 181 ,Physics = 189 ,Chemistry = 193

Maths = $181/2 = 90.5$

Physics = $189/4 = 47.5$

Chemistry = $193/4 = 48.2$

Engineering Cut off = Maths+ Physics+ Chemistry = $90.5+47.5+48.2 = 186.2$

The cut-off marks will be generally in the order of 0.25, 0.5, 0.75 will be considered for ranking. The candidates should not round of this mark. For example, it will be in the order of 200, 199.75, 199.5, 199.25,.. and so on. Every 0.25 marks will be the crucial one while considered for ranking.
