Let us know some celebrations in a year

August

December

Christmas

## Do you know?

This year, we celebrate the Ramzan festival in the month of

1. In the calendar given, circle the days of the following using colour pencils.

* Your birthday
* School re-opening day after half-yearly holidays
* Republic day
* Tamil New Year day
* All Thursdays in the month of February
* Christmas day
* Gandhi Jayanthi day

2. Find out the day of the following in the calendar given.

* January $20^{\text {th }}$ $\qquad$ day
* February $4^{\text {th }}$ $\qquad$ day
* March $15^{\text {th }}$ $\qquad$ day
* This year, your birthday falls on $\qquad$ day
* The last day of the April month is, $\qquad$ day

3. Match the following.

* World Literacy Day
* Children's Day
* Human Rights Day
* May Day
* Teacher's Day

November 14
September 5
May 1
December 10
September 8

## Teacher's Note :

The teacher may give similar practices to the children by asking the above type of questions using the current calender.

## EXERCISE

## Choose the correct answer:

1) The academic year starts in $\qquad$ (January / June)
2) Independence day is celebrated in the month of $\qquad$ (January I August)
3) The first working day in a week $\qquad$ (Sunday / Monday)
4) ...................... day is celebrated in the month of September (Children's I Teacher's)
5) Education development day is celebrated in the month of ................... (June I July)

Seasons

## Summer

March, April, May, June

Rainy

July, August, September, October

Winter

November, December, January, February

## 6. Multiplication

Let us see the arrangements.

There are 3 groups .
Two balls are in each group and totally there are 6 balls. It can be written as 2 balls +2 balls +2 balls $=6$ balls. It means 3 times of 2 balls, $3 \times 2$ balls $=6$ balls

Multiplication is repeated addition of the same number. The symbol ' $X$ ' denotes multiplication.

Do it yourself

## Do it yourself

$+$ $\square$

Write the multiplication facts.
$2+2+2$
$=\quad 3 \times 2$
$4+4+4+4$
$=\square$
$6+6+6+6+6$
$=\square$

$$
9+9+9+9+9+9
$$

$5+5$
$7+7+7+7$
$8+8+8+8+8+8+8$
$=\quad \square$
$3+3+3+3+3+3+3+3+3=$ $\square$
$0+0+0+0$
$1+1+1$ $\square$

Fill in the blanks.

Match the following.

|  | 3 |
| :--- | :--- |
| Hi | 3 |

$1 \times 10$

Match the following.

Write the repeated addition facts.

| $6 \times 2$ | $2+2+2+2+2+2$ |
| :--- | :--- | :--- |
| $7 \times 4$ | $=$ |
| $3 \times 8$ | $=$ |
| $2 \times 9$ | $=$ |
| $4 \times 6$ | $=$ |
| $5 \times 3$ | $=$ |
| 5 |  |

## Group the objects equally

$\sqrt{\text { Shall we share } 12 \text { balls equally? }}$
050 mocta

$$
12=1+1+1+1+1+1+1+1+1+1+1+1
$$

## Let us share 15 objects equally.

```
15 = 1 + 1+1+1+1 +1+1 +1+1 +1 +1 +1 +1 +1 +1
```

$$
15
$$

$$
3+
$$

$$
3+
$$

$$
3+
$$

$$
3
$$

$$
3
$$

5
5

15 apples could be shared equally in 3 different ways.

Try to share 18 bananas equally in different ways.
$\sum$ Different number of objects can be shared equally in different ways.

## Mind maths

A packet has 10 Pens.
 How many pens will be in 2 packets?

A basket has 10 apples.

How many apples are in 6 baskets?

How many biscuits are in 4 packets?

10 students sit in a row

How many students will be in 9 rows?

A box contains 10 eggs.

How many eggs are in 3 boxes?

## Teacher's Note

Teacher may give more examples to practise mind maths involving multiplication.

## 7. Money

What do you need to buy something from a shop?

Money

We call our money as rupees and paise.
 It is used in the form of notes and coins.

## Match the price of the object with its transaction.

$\star$ How much more money does Arun need to buy the toy train?
₹ $\qquad$
$\star$ How much is left with Antony after buying the toy train?
₹ $\qquad$

The prices of some objects are given below.

Find out the cost of each set.

Think and answer orally.
The cost of an
The cost of a
is ₹ 3 .
What is the total cost of these two fruits?

How much does the pen cost more than the chocolate ?

The cost of a

is ₹ 7 and that of a is ₹ 30 .

I have ₹ 40. Can I buy both the top and doll?

My mother gave me ₹ 20 on my birthday. I bought a piggy bank for ₹ 15 . I put the remaining in my piggy bank. How much did I save?

## Teacher's Note

The teacher may give more examples based on the life situations.

## Do you know?

The symbol of the Indian currency '₹' was designed by Mr. D. Udhayakumar of Tamil Nadu.

## 8. Block Patterns

Patterns are not only made by shapes and numbers. It can be made by many things which we use in day-to-day life.

For example : Thumb printing, Vegetable printing,......
Thumb Print Pattern

Thumb and Fingertip Print Pattern

## Vegetable Print Patterns

Block patterns are made by repeating the same motif again and again.

## Activity

Using vegetable cuttings like potato, lady's finger and bitter gourd, try to make patterns.

## Activity

Using your thumb and fingertip, create patterns of your own.

## Teacher's Note

Help the children to do these activities in groups with the help of ink and water colours.

ETactuvity
Complete the picture given below by adding stem, leaves, flowers, fruits, birds etc. using block patterns.

Use objects of regular shapes and print the given patterns in a paper

Bottle caps

Eraser

Dice

## Activity

Create your own patterns using objects with regular shapes of different sizes.
